| 28. Description of Change: (use additional Sheets if necessary) Changes in the NFS mount points have been requested by development to support new functionality. The existing baseline has typographical errors that need to be corrected and there are a few mount points to be removed. | | | | | | |
| 29. Proposed Solution: (use additional sheets if necessary) See attached spreadsheet. The main items that affect most installations are that /dss_stk1 and /dss_stk2 mounts are removed from being mountpoints at the DAACs and mount points have been added for STMGIT multiple archive instances. Also, the subtitle has been revised to delete SHARED modes (There is only one one shared mode mount point.) | | | | | | |
